

IHPBA MEMBER SPOTLIGHT

As an early career female surgeon from a small country, I could not imagine anyone would notice me in this international HPB community.

Access to learning materials provided by IHPBA has increased my knowledge, I have opportunities to connect with masters worldwide, and appreciate having discounted registration fees for congresses. Most of all, this membership has led to incredible experiences and opportunities. I serve on the Early Career Group Leadership Council and have taken part in an IHPBA-sponsored outreach project, which gave me the chance to connect with HPB surgeons from around the world.

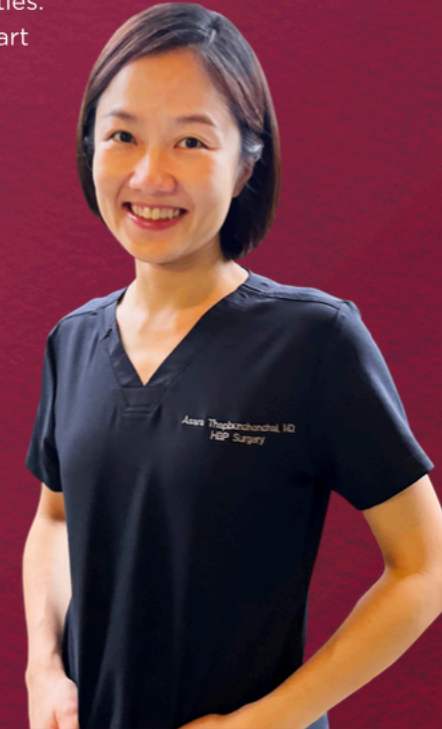

Many other opportunities have come up for me, including participating in a panel discussion of Women in HPB at the A-HPBA 2023 Congress in Bangalore, India.

In being a member of IHPBA, I have earned admiration from all my colleagues and gained more support and confidence in my ability to pursue my career ambitions.

Membership in this organization provides a golden opportunity for personal and professional growth and the chance to make a meaningful impact in the HPB community. I decided to renew the IHPBA membership undoubtedly.

Don't miss this opportunity to be a part of something meaningful!

Dr Asara Thepbunchonchai is a junior attending in HPB and liver transplant surgery at Chiang Mai University in Thailand, who joined IHPBA/A-HPBA in 2021.
